Ford Ranger MK5/6 Central Locking

Vehicle wire colours are listed as a guide.

Please check with a multi-meter before fitting the harness.

1. Ensure the ignition is off. Remove the rear plastic wheel arch lining from the passenger side.
2. Unplug the wire connected to the fuel cap lock, expose the central locking wires.
3. Connect wires, Using the provided scotch locks (or similar method), fix to the loom.
YELLOW CENTRAL LOCKING (LOCK) Grey/Brown
GREEN CENTRAL LOCKING (UNLOCK) Violet/Green
4. Reconnect the fuel cap lock and check that the hardtop locks and unlocks with the vehicle's remote.

Directors: B.A.R. Toogood and J. E. Toogood.
